

The Attunement Initiation

Saturday, October 22nd

Attunement is the re-alignment of the body, mind, and heart with the natural life force of the Creator.

Attunement is the process of re-creation in consciousness resulting in a deepening experience of connection and renewal with Source.

It is the re-discovery of Self and each individual's part in the cosmos.

This spiritual technology is a powerful non-touch and gentle touch approach to the release of one's own radiant Life energy.

The **Attunement Initiation Seminar** is a hands-on introduction to Attunement, the Attunement process and the workbook, **a beginner's guide to Attunement: The Energy of Being**, authored by Chris Jorgensen. This event is also a pre-requisite for future more in-depth Attunement Courses.

The day will include topics and experiences relating to:

- **The Working of the One Law**
- **Union with the Creator**
- **The energies of the Endocrine System**
- **Attunement Technique & History**
- **Consciousness of True Identity**
- **Pneumaplastm: the connection between Spirit and Form**

Chris and Donna Jorgensen, who together have practiced and taught Attunement for over sixty-five years, will facilitate the day. Chris is an **Attunement Master-Teacher** and has a growing Natural Healing and Energy Practice in Kansas City. In his book he says, "Attunement works directly with the energy of Being. It is the reality of Love, the Love of the Creator, made visible."
